## **Gardens of Andalucia**

Design by Silvana Azzi Heras; House of Heras

House of Heras is a boutique design studio led by award winning designer Silvana Azzi Heras, who specialises in highly decorative designs applied to a variety of mediums including wallpapers, crockery and fabric.

The Gardens of Andalucia is House of Heras' ode to Spain, inspired by the designer's travels throughout southern Spain and the beauty and influence of the Moors in that region.

This collection is the third collaboration with Designer Rugs. Capturing the vibrant spirit of Andalucia with its intricate design details, vibrant wildflowers and diverse birdlife. Each rug tells a story through colour, pattern and texture transporting you to the land of flamenco, ancient architecture and stunning natural beauty.
